CAUTION: External Sender

Hi Alan,

Thanks for reaching out. Apologies for the delayed response. I have reviewed the mission statement and PEOs. Overall, they look good. I have one suggestion below. You may come up with better wording than what I have suggested – the idea is to clarify purpose.

Professional Impact:

Apply fundamental principles, scientific and engineering knowledge, problem-solving, critical thinking, and creative design to drive tangible impact in professional engineering practice and non-engineering fields such as law, medicine, education and business.

Regards,
Shailendra

Subject: [EXTERNAL] New UIC ChE Mission Statement and Program Educational Objectives

Dear Shailendra,

I hope this email finds you well. I have a favor to ask. The College of Engineering (COE) recently revised the College Mission Statement as part of the COE Strategic Plan Initiative. Because of this change, the ChE faculty revisited our Chemical Engineering mission statement and PEO's in order to align with the new College mission statement. I have attached a file with the new ChE mission statement and revised PEO's that was approved by the ChE faculty. I have included the previous mission statement/PEO's, and the UIC and College mission statements as a reference.

Please review at your earliest convenience and let me know if you approve of the revised statement and objectives and have any comments.

For your information, our 6-year engineering accreditation review (ABET) is scheduled for this October 2026 (ABET), with the ABET self-study report due July 1st . I will be adding the new mission statement and PEO's to our self-study report as a 'work in progress' .

Best regards,

Alan

CAUTION: External Sender

Alan,

I believe your team has done an outstanding job in drafting the new mission statements and program educational objectives. I like specifically the emphasis on proficiency and upward mobility. Your solid education program and practical engagement enable the proficiency and your engagement with industry and collaborating institutions enable the upward mobility for the students.

Please let me know if you need anything else from me.

Best,
Claus

Dear Alan,

Thank you for reaching out. I have reviewed the revised Chemical Engineering mission statement and Program Educational Objectives (PEOs). I agree with the changes and approve of the new statements as presented. Best of luck with the process and hope to see you in person soon.

Kind Regards
Charles Damianides

CAUTION: External Sender

Hi Prof. Zdunek

Great to hear from you and thanks for reaching out. The Chem E Department's mission statement and PEOs are exceptionally well-aligned with both the CoE and the overall UIC mission statements. Please see attached with some minor suggestions and a comment for your consideration.

Best of luck with the forthcoming ABET accreditation review

Regards,

Tarun
