4. **Vote for New Chemical Engineering Mission Statement:**

Option #1: The mission of the Department of Chemical Engineering is to deliver an outstanding and accessible education to a diverse student body. We prepare skilled engineers to advance both fundamental and applied research, drive innovation, and lead the development of transformative technologies that enhance economic mobility and contribute to local and global prosperity.

Option #2: The mission of the Department of Chemical Engineering is to provide an outstanding and accessible education that empowers a diverse student population. We develop proficient engineers who advance fundamental and applied research, foster innovation, and lead transformative technological solutions that drive economic mobility and contribute meaningfully to society at both local and global levels.

New College of Engineering Mission

“Through our commitment to excellence, accessible education and impactful research, we prepare curious, proficient and diverse engineers and computer scientists to lead and advance upward mobility locally and globally.”

NEW ECE Mission

“The Department of Electrical and Computer Engineering is committed to excellence in accessible education, transformative research, and engagement that serves society. We prepare diverse and proficient engineers to innovate, lead, and advance technological solutions that strengthen economic mobility and improve lives in Chicago and around the world.”

Mission Statement:

What do we do?

For whom do we do it?

Why do we do it?

How do we do it?

Under 100 words, 2-3 sentences

Ours is 52 words.
