Re-alignment of CHE Program Educational Objectives to new COE Mission Statement:

New College of Engineering Mission

"Through our commitment to excellence, accessible education and impactful research, we prepare curious, proficient and diverse engineers and computer scientists to lead and advance upward mobility locally and globally."

Previous COE Mission Statement for comparison:

Mission of the College

UIC Engineering's mission is access to excellence and success. We educate students to innovate and to lead. We expand global knowledge of the engineering field through excellence in original research. In addition, as a public institution we prioritize our relationship with the city of Chicago and the state of Illinois. We foster strong local partnerships, provide crucial engineering expertise and facilities, and serve as a major economic driver for the region.

Example: ECE Department Updated Mission and aligning to their PEO's

NEW ECE Mission

"The Department of Electrical and Computer Engineering is committed to excellence in accessible education, transformative research, and engagement that serves society. We prepare diverse and proficient engineers to innovate, lead, and advance technological solutions that strengthen economic mobility and improve lives in Chicago and around the world."

- **Added Excellence in accessible education**
  Relevant PEOs to this statement: PEO 1, PEO 4

Alignment explanation: Accessible education ensures that graduates develop strong technical foundations (PEO 1: Professional Impact) and the intellectual preparation needed for continued professional growth and lifelong learning (PEO 4).

NEW Program Educational Objectives (PEOs)

1. **Professional Impact**

Contribute effectively to industry, research, government, and entrepreneurial ventures by applying strong technical expertise to develop innovative solutions that address societal and technological challenges locally and globally**.**

2. **Leadership and Economic Mobility**

Demonstrate leadership and initiative in advancing engineering practice, driving technological innovation, and contributing to economic growth and upward mobility within their organizations and communities.

3. **Ethical, Inclusive, and People-Focused Practice**

Practice engineering with integrity, professionalism, and ethical responsibility; communicate effectively with diverse stakeholders; and design solutions that are inclusive, equitable, and responsive to human and societal needs.

4. **Lifelong Learning and Advancement**

Pursue continuous professional development through advanced study, research, certifications, or entrepreneurial and innovative activities, demonstrating curiosity, resilience, and adaptability in a rapidly evolving global environment.

Current Chemical Engineering Mission Statement:

"The Department of Chemical Engineering is committed to excellence in accessible education, research, and public service. We prepare diverse and proficient chemical engineers to innovate, lead and advance engineering practice and technologies through a lifetime of continued learning and leadership that strengthens upward mobility and benefits the local and global economy.

Highlighted in Red is a word we can add to our mission statement to align it with the COE mission.

Relevant PEO's to 'accessible education': PEO 1 and PEO 4?

Current CHE Program Educational Objectives (PEO's):

PEO	Category	Description
1	Depth	In engineering practice, advanced study or original research, UIC Chemical Engineering bachelor's degree graduates will be effective in applying fundamental principles, scientific knowledge, rigorous analysis, creative design, and conceptual innovation.
2	Breadth	Based upon mastery of engineering in a broad, societal context, UIC Chemical Engineering graduates will have successful careers in the public or private sectors, or in the pursuit of graduate education.
3	Professionalism and Service	In the service of industry, government, the engineering profession and society at large, graduates will function effectively in the complex modern work environment with clear communication, responsible teamwork, and high standards of ethics, professionalism, safety and protection of the environment.
4	Long Learning and Leadership	Based upon a rigorous undergraduate program that is innovative, challenging, open and supportive, graduates will enhance their skills and knowledge through life-long learning and demonstrate professional leadership.

Respectfully submitted,

Alan Zdunek
