Revision of the Current ChE Mission Statement and Program Educational Objectives

Previous Mission Statement & PEO'S

"The mission of the Department of Chemical Engineering is to serve society through excellence in education, research, and public service. We provide for our students an education in chemical engineering, and we aspire to instill in them the attitudes, values, and vision that will prepare them for lifetimes of continued learning and leadership in their chosen careers. Through scholarship, the Department strives to generate new knowledge and technology for the benefit of the State of Illinois, the nation, and beyond."

PEO	Category	Description
1	Depth	In engineering practice, advanced study or original research, UIC Chemical Engineering bachelor's degree graduates will be effective in applying fundamental principles, scientific knowledge, rigorous analysis, creative design, and conceptual innovation.
2	Breadth	Based upon mastery of engineering in a broad, societal context, UIC Chemical Engineering graduates will have successful careers in the public or private sectors, or in the pursuit of graduate education.
3	Professionalism and Service	In the service of industry, government, the engineering profession and society at large, graduates will function effectively in the complex modern work environment with clear communication, responsible teamwork, and high standards of ethics, professionalism, safety and protection of the environment.
4	Life-Long Learning and Leadership	Based upon a rigorous undergraduate program that is innovative, challenging, open and supportive, graduates will enhance their skills and knowledge through life-long learning and demonstrate professional leadership.

Proposed Mission Statement & PEO'S

"The mission of the Department of Chemical Engineering is to deliver an outstanding and accessible education to a diverse student body. We prepare skilled engineers to advance both fundamental and applied research, drive innovation, and lead the development of transformative technologies that enhance economic/upward mobility and contribute to local and global prosperity".

PEO	Category	Description
1	**Professional Impact**	Apply fundamental principles, scientific and engineering knowledge, problem-solving, critical thinking, and creative design to drive tangible impact in chemical engineering practice and non-engineering fields such as law, medicine, education and business.
2	**Professional Practice**	Contribute to industry, academia, government and entrepreneurial ventures and develop innovative, sustainable solutions that address societal and technical challenges locally and globally, contributing to economic growth and upward mobility.
3	**Service and Leadership**	Practice engineering with clear communication, leadership, teamwork, and high standards of integrity, ethical responsibility, with focus on safety of human life and protection of the environment, thereby creating a collaborative, diverse and inclusive culture in the workplace.
4	**Professional Development**	Reinforce skills and knowledge through graduate education, professional development courses, self-directed research, and on-the-job training and experience.
