Hi Alan,

If you want the table to be reflective of the IPEDS fall FTE methodology then that row would need to be restated using the formula: (FT Headcount * 1) + (PT Headcount * 0.403543)= Estimated FTE. For the year 2020 column below this would be (3,883*1)+ (344*0.403543)=4,021.82 estimated FTE.

**Subject:** Re: Full-time equivalent student number vs full time head count

Dear Miiri and Thomas,

Thank you for the explanation. A follow-up question is why the Full-time students and Student FTE numbers are the same in the table below assuming we have part-time students in the College of Engineering. I think that was the underlying question from the ABET program evaluator.

Regards,

Alan

Table 1.5 COE Enrollment Trends for Past Five Academic Years

**Table 1.5 Enrollment Trends for Past Five Academic Years**

| | Year 2020 | Year 2021 | Year 2022 | Year 2023 | Year 2024 | Year 2025 |
|---|---|---|---|---|---|---|
| Full-time Students | 3883 | 4023 | 4058 | 4558 | 4669 | 5046 |
| Part-time Students | 344 | 399 | 391 | 376 | 381 | 378 |
| Student FTE1 | 3883 | 4023 | 4058 | 4558 | 4669 | 5046 |
| Graduates | 894 | 964 | 913 | 899 | 951 | N/A |

1 FTE = Full-Time Equivalent

**Subject:** Re: Full-time equivalent student number vs full time head count

Hi Miiri,

Here is a screenshot of the IPEDS definition for both full-time students and FTE calculations.
https://surveys.nces.ed.gov/ipeds/public/glossary

| | |
|---|---|
| Full-time student | Undergraduate: A student enrolled for 12 or more semester credits, or 12 or more quarter credits, or 24 or more clock hours a week each term. Graduate: A student enrolled for 9 or more semester credits, or 9 or more quarter credits, or a student involved in thesis or dissertation preparation that is considered full-time by the institution. Doctor's degree - Professional practice - full-time as defined by the institution. |

| Term | Definition |
|---|---|
| Calculation of FTE students (using fall student headcounts) | The number of FTE students is calculated based on fall student headcounts as reported by the institution on the IPEDS Enrollment (EF) component (Part A). The full-time equivalent (headcount) of the institution's part-time enrollment is estimated by multiplying the factors noted below times the part-time headcount. These are then added to the full-time enrollment headcounts to obtain an FTE for all students enrolled in the fall. This formula is used to produce an FTE that is used annually in the Digest of Education Statistics.<br>• Part-time undergraduate enrollment<br>  ◦ Public 4-year (.403543)<br>  ◦ Private (not-for-profit and for-profit) 4-year (.392857)<br>  ◦ Public 2-year and <2-year (.335737)<br>  ◦ All other institutions (.397058)<br>• Part-time graduate enrollment<br>  ◦ Public 4-year (.361702)<br>  ◦ Private (not-for-profit and for-profit) 4-year (.382059) |

So the part time students should be additive to the full time students on the proration included in the table. Stephanie, did you have any other notes to share?

Dear Thomas
Do you think you can help me with the question below? Malinda suggested I reach out to you:

I wasn't sure who to inquire with this, but we are being asked by our ABET accrediting body about the difference between FTE and Full time students. Are these the same? How are part time students counted in enrollment?

Thank you for any insight you have.

Sincerely
Miiri

Hi Malinda,
I wasn't sure who to inquire with this, but we are being asked by our ABET accrediting body about the difference between FTE and Full time students. Are these the same? How are part time students counted in enrollment?

Please let me know if there is someone else I should inquire with.

Thanks so much
Miiri

**To:** Kotche, Miiri Ann <mkotch2@uic.edu>; Williams, Jessica <jwatki8@uic.edu>
**Subject:** Full-time equivalent student number vs full time head count

Hi Miiri and Jessica,

A question from the ABET CHE PEV:

How is FTE calculated? In Table 1.5 in our SSR, The FTE row is equivalent to full-time head count.

**Table 1.5 Enrollment Trends for Past Five Academic Years**

| | Year 2020 | Year 2021 | Year 2022 | Year 2023 | Year 2024 | Year 2025 |
|---|---|---|---|---|---|---|
| Full-time Students | 3883 | 4023 | 4058 | 4558 | 4669 | 5046 |
| Part-time Students | 344 | 399 | 391 | 376 | 381 | 378 |

| | | | | | | |
|---|---|---|---|---|---|---|
| Student FTE1 | 3883 | 4023 | 4058 | 4558 | 4669 | 5046 |
| Graduates | 894 | 964 | 913 | 899 | 951 | N/A |

1 FTE = Full-Time Equivalent

Thanks,

Alan
