

Faculty Meeting October 2022

1. Postdoc Research Associate-Bridge to Faculty positions are to be advertised
 - a. There are no startup funds given from the center but we (CHE department) will have some money for startup in 2-3 years (depends also on the area of research: computational/experimental)
 - b. There is no contract binding for this position (they may leave any time, or terminated any time)
 - c. What happens to the money given to them if they leave early? (to be addressed)
 - d. Advertisement is open to all fields, to get maximum number of applications, and faculty can select to mentor based on their research area of interest.
 - e. Top-most priority is given to Latinx applicants and other low representations (Meenesh and Anh requested to provide minority requirements for selections/hiring).
 - f. Already hired postdocs can be encouraged to apply for this position but mostly focused on fresh graduates or who have less than 1 year of postdoc experience.
2. Graduate application fee waivers: Out of 170\$, 70\$ will be waived by the college
 - a. The credential fee of 100\$ is covered by the CHE department (a voucher is created online for prospective students to enter while they are applying)
3. Decline in number of students in applying is still under debate
 - a. 82% retention in our department (better than other departments) but lower than computer science
 - b. Hispanic population was less retained, we have more female retention than male
 - c. Number of job opening positions available went down, we will know more at the ACHE meeting in November
 - d. Vikas hired a student to do a survey, we will know more on the reason why students are switching the departments in the next meeting
 - e. Most of them are switching to computer science
 - f. Adding datascience to CHE and giving some certificate (example given by shafigh)
 - g. Meenesh suggested to do new concentrations (such as process automation) that can help students as recruitment tool
4. Student lead recruitment team for handling EIB visits (Alan), high school student visits (Michael).

From Alan:

Undergraduate Report: Faculty Meeting, October 14, 2022

1. Advising Week- October 24-28
 - a. Advising timeslots spreadsheet sent out by Eddie Martinez
 - b. Students sign up next week
 - c. Advising FAQ'S, Updated Semester Course Schedule and Flowchart (Core BS and Concentrations)
 - d. Advising sessions- Use iAdvise
2. ABET information
 - a. Course rubric assessments from Spring semester- I will contact faculty about doing the assessment
3. Fall 2022 Undergraduate Recruitment
 - a. Open House September 17- Success! Correspondence to attendees
 - b. International Latina Week- Unit Ops Lab tour October 15
4. Higher Learning Commission visit in March 2024- Planning, need feedback on PEO's and Course SLO's.
5. North-Central Regional Conference hosted by UIC Chemical Engineering (April 2023)

Respectfully submitted,

Alan Zdunek

Departmental Action Team Support (DAT): (Mike/Carmen)

- Grant was applied for IU programs from NSF
- The goal for this program is to improve faculty development, to improve campus infrastructure
- Improving experience for undergraduate STEM students.
- DAT is an external ad-hoc working group that include faculty members from all ranks of UIC departments, staff, and students to look at undergraduate course evaluations, failures, and other issues
- Collect data to identify causes and effects
