Hello Dr. Nere,

Two strengths of the members of my group are:

Sarah

- Organized and led the charge on starting the presentation
- Efficient in making sure her parts were finished early

Veronica

- Helped with other slides once she finished her own
- Diligent about making it to every group meeting

Two weaknesses of the members of my group are:

Sarah

- Had a busy schedule that forces some meeting time changes
- Forgot to practice speaking portions until a few weeks before the presentation

Veronica

- Needed some help making her original slides less word heavy
- Forgot to add pictures to her slides before a week ago

Those are two strengths and weaknesses of each of my team members.

From, Ajit Mistry
