

Scoles Team Feedback for CHE 494

From Scoles, Sarah <sscoles@uic.edu>

Date Wed 5/6/2026 10:46 AM

To Nere, Nandu <nnere2@uic.edu>

Hi Nandu,

I hope you are well and thank you for a great semester. I learned a lot throughout this course that will be helpful for the rest of my graduate schooling and into my professional career.

Feedback for my teammates:

Ajit:

Strengths: Ajit has excellent technical knowledge and is confident in his ability to convey complex ideas, he did a great job on our project.

Opportunities for improvement: Creating analogies for understanding (breaking down complex subjects into easy-to-understand phrases) and interpersonal connection – e.g., creating a personal connection with his team members. Otherwise, he was easy to work with and great teammate.

Veronica:

Strengths: Easy to have conversation with (makes for an easy person to work with) and able to take feedback extremely well and make changes based on it. She is also able to understand and communicate complex topics well.

Opportunities for improvement: Communication timeliness and creating presentation slides that are engaging and organized. Otherwise, she was a great team member and easy to work with overall!

Our team did a great job, and both of my teammates were easy to work with.

Thank you again and I hope you have a great rest of your week!

Best,
Sarah Scoles
