Continuous Improvement Ongoing Progress

Email exchange discussing CHE 230/CME 260 overlap with faculty.

Re: Overlapping Course Content (CHE 230, CHE 330, CME 260)
Chemical Faculty Listserv on behalf of Zdunek, Alan
CHE-FACULTY@LISTSERV.UIC.EDU

A couple more comments on this issue:

@Betul- Thanks for sharing the students' concerns on this.

It appears we need to revisit this again as we haven't 'closed the loop' on the overlap. I will set up a meeting as Vivek suggested with the instructors who are teaching/have taught 230/330/454.

Background information:
Ezinne brought up the issue in Fall 2024 and Vikas, Ezinne, Vivek and I had discussions on reducing the overlap between 230 and 330, and 230/260 back in January 2025.

Our discussions centered around:
Currently covering many topics in 230, with some being too advanced for a 200-level course. Need to integrate 230, 330 and 454 more effectively.
There is no textbook on molecular systems in chemical engineering, any suggestions? Also, guidance is needed on creating a set of homework assignments.

Thanks,

Alan
