Hi Professor Zdunek,

As we discussed yesterday, I have asked AI to go through all historical graded pre-lab and lab report in shared Box folder, as well as the lab manual for all 6 experiments. I have created a folder in Box named "Rubric Draft" for you to review. Please feel free to make editions on them or request any modification from me.

Also, if you have more graded pre-lab or lab reports, you can also send them to me, and I can let AI to further refine the grading criteria.

Best,
Yuli Zhu
