

Alumni Survey: NEW CHE Mission Statement & Program Educational Objectives

Greetings! The College of Engineering (COE) recently revised the College Mission Statement as part of the COE Strategic Plan Initiative. Because of this change, the CHE faculty revisited our Chemical Engineering mission statement and Program Educational Objectives (PEO's) in order to align with the new College mission statement. We are interested in your valuable input as alumni to our program.

Please evaluate the Chemical Engineering Mission Statement and Program Educational Objectives from 1 to 5, 1 being the lowest and 5 the highest. You may also leave a short comment at the end of the survey. In formulating your response, reflect on your own experiences in relation to the qualities of (1) Professional Impact, (2) Professional Practice, (3) Service & Leadership (4) Professional Development that constitute the Program Educational Objectives of the Chemical Engineering program.

Thank you in advance for your time and support to our program.

* Indicates required question

1. Full Name *

2. Title, Company or other affiliation *

3. Years from UIC graduation *

4. College of Engineering Mission Statement ★

"Through our commitment to excellence, accessible education and impactful research, we prepare curious, proficient and diverse engineers and computer scientists to lead and advance upward mobility locally and globally."

NEW Chemical Engineering Mission Statement:

"The mission of the Department of Chemical Engineering is to deliver an outstanding and accessible education to a diverse student body. We prepare skilled engineers to advance both fundamental and applied research, drive innovation, and lead the development of transformative technologies that enhance economic mobility and contribute to local and global prosperity".
