

ChE 453 – Fundamentals of Electrochemistry –Fall 2024

Student Learning Outcome 3: An ability to communicate effectively with a range of audiences (oral communication)

Rubric assessment of individual student presentation on research article

Summary of Results:

Rubric Assessment Table

1. Oral presentation delivery	Plans and delivers an oral presentation effectively; applies the principle of "(tell them)3" --well organized	Presents key elements of an oral presentation adequately, but "tell them" not clearly applied	Talk is poorly organized, e.g. no clear introduction or summary of talk is presented
2. Presentation details and appropriate technical content for the time constraint and the audience	Presentation has enough detail appropriate and technical content for the time constraint and the audience	Presentation contains excessive or insufficient detail for time allowed or level of audience	Presentation is inappropriately short or excessively long; omits key results during presentation
3. Presentation mechanical aspects	Presents well mechanically: · Makes eye contact · Can be easily heard · Speaks comfortably with minimal prompts (notecards) · Does not block screen · No distracting nervous habits	Has some minor difficulties with the mechanical aspects of the presentation · Eye contact is sporadic · Occasionally difficult to hear or understand speaking · Overuses prompts or does not use prompts enough-occasionally stumbles or loses place; appears to have memorized presentation · Occasionally blocks screen · Some nervous habits (um, ah, clicking pointer, etc.)	Major difficulties with the mechanical aspects of the presentation · No eye contact · Difficult to hear or understand speaking · Reads from prepared script · Blocks the screen · Distracting nervous habits (um, ah, clicking pointer, etc.)
4. English language	Uses proper American English	Occasionally uses an inappropriate style of English-too conversational	Uses poor English
5. Visual aides	Uses visual aides effectively	Visual aides have minor errors or are not always clearly visible	Multiple slides are unclear or incomprehensible
6. Appearance	Professional appearance	Appearance is too casual for the circumstances	Appearance is inappropriate
7. Questions	Listens carefully and responds to questions appropriately; is able to explain and interpret results for various audiences and purposes	Sometimes misunderstands questions, does not respond appropriately to the audience, or has some trouble answering questions	Does not listen carefully to questions, does not provide an appropriate answer, or is unable to answer questions about presentation material

Assignment Description:

Each student is required to give an oral presentation on a peer reviewed journal article assigned by the instructor. The presentation should review current research related to a specific electrochemical technology or a scientific question that advances the fundamental understanding of an electrochemical process. The presentation is in Power Point-type format (15 minutes presentation and 5 minutes Q/A).
