

2026 CHEME EXPO JUDGING SHEET

Judge Name: Nina Jasmin Malapit

Team Number: 1

Team Members: Alexis G. Rishabh P. Basil H.

Technical Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following technical aspects:

1. Identification of project objective(s)	5
2. Evaluation of design alternatives with realistic constraints (economic, environmental, social, ethical)	4
3. Consideration of factors influencing the design (cost, manufacturability, sustainability, maintainability)	4
4. Overall fulfillment of project objectives	5
5. Project practicality in view of contemporary engineering standards/practice	4
Total	22

Alternate plant
locations
Fuel costs → high

Presentation Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following presentation aspects:

1. General professionalism and oral communication	5
2. Knowledge of the background material	4
3. Organization & quality of presentation material	3.4
4. Group dynamics/member participation	4
5. Quality, effectiveness, & use of visual aids	3
Total	20

Comments:

- Houston location to minimize transportation cost & close to water way for imports
- Hard to follow PFD compared to other groups
Maybe a color coded BFD would have been helpful.

2026 CHEME EXPO JUDGING SHEET

Judge Name: Nina Jasmin Malapit

Team Number: 4

Team Members: Almeda, Kyle H., Kendall J., Lindsey M., Khea N.

Technical Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following technical aspects:

1. Identification of project objective(s)	5
2. Evaluation of design alternatives with realistic constraints (economic, environmental, social, ethical)	4
3. Consideration of factors influencing the design (cost, manufacturability, sustainability, maintainability)	5
4. Overall fulfillment of project objectives	5
5. Project practicality in view of contemporary engineering standards/practice	5
Total	24

consideration
HCl recovery
heat integration
of steam generation

Presentation Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following presentation aspects:

1. General professionalism and oral communication	5
2. Knowledge of the background material	5
3. Organization & quality of presentation material	5
4. Group dynamics/member participation	4
5. Quality, effectiveness, & use of visual aids	4
Total	23

Comments:

HCl Recovery
HF safety considerations
Considerations for transportation & site locations

2026 CHEME EXPO JUDGING SHEET

Judge Name: Nina Jasmin Malapit

Team Number: 3

Team Members:

Fishin' for Clearer Skies

Dana Cai, Miguel Pizar, Quassay Suleiman, & Jasmin Aca

Technical Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following technical aspects:

1. Identification of project objective(s)	5
2. Evaluation of design alternatives with realistic constraints (economic, environmental, social, ethical)	5
3. Consideration of factors influencing the design (cost, manufacturability, sustainability, maintainability)	5
4. Overall fulfillment of project objectives	5
5. Project practicality in view of contemporary engineering standards/practice	5
Total	25

*purchasing green
H₂ for rxn.
~~specifically~~
higher cost
but comes
w/ credits*

Presentation Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following presentation aspects:

1. General professionalism and oral communication	5
2. Knowledge of the background material	5
3. Organization & quality of presentation material	5
4. Group dynamics/member participation	4
5. Quality, effectiveness, & use of visual aids	5
Total	24

Comments:

*Suggestions for improving plant efficiency
using hot syngas for heating medium or
light ends as fuel.*

2026 CHEME EXPO JUDGING SHEET

Judge Name: Nina Jasmin Malapit

Team Number: 2

Team Members: Joshua D. & Omar

Technical Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following technical aspects:

1. Identification of project objective(s)	5
2. Evaluation of design alternatives with realistic constraints (economic, environmental, social, ethical)	5
3. Consideration of factors influencing the design (cost, manufacturability, sustainability, maintainability)	5
4. Overall fulfillment of project objectives	5
5. Project practicality in view of contemporary engineering standards/practice	5
Total	25

Presentation Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following presentation aspects:

1. General professionalism and oral communication	5
2. Knowledge of the background material	5
3. Organization & quality of presentation material	5
4. Group dynamics/member participation	5
5. Quality, effectiveness, & use of visual aids	5
Total	25

Comments:

- * Great presentation delivery & visuals & participation
- * Great knowledge of policies & global/domestic factors influencing project profitability
- * Clear consideration of competitive alternatives
- * Clear ~~reaction~~ ^{walkthrough} of process

Plant in Houston, Texas
Honeywell tech on $\text{MeDH} \rightarrow \text{olefin}$.

2026 CHEME EXPO JUDGING SHEET

Judge Name: Paul Diaz

Team Number: 5

Team Members:

Technical Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following technical aspects:

1. Identification of project objective(s)	5
2. Evaluation of design alternatives with realistic constraints (economic, environmental, social, ethical)	4
3. Consideration of factors influencing the design (cost, manufacturability, sustainability, maintainability)	4
4. Overall fulfillment of project objectives	4
5. Project practicality in view of contemporary engineering standards/practice	3
Total	20

Presentation Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following presentation aspects:

1. General professionalism and oral communication	4
2. Knowledge of the background material	3
3. Organization & quality of presentation material	3
4. Group dynamics/member participation	5
5. Quality, effectiveness, & use of visual aids	4
Total	19

Comments:

- Space Market: Large Cap Revenue
- competitors identified, ESG focus
- rocket fuel production, feed via biomass
- Cal; grants → Low carbon fuel standard.

2026 CHEME EXPO JUDGING SHEET

Judge Name: Paul Diaz

Team Number: 6

Team Members:

Technical Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following technical aspects:

1. Identification of project objective(s)	2
2. Evaluation of design alternatives with realistic constraints (economic, environmental, social, ethical)	3
3. Consideration of factors influencing the design (cost, manufacturability, sustainability, maintainability)	3
4. Overall fulfillment of project objectives	3
5. Project practicality in view of contemporary engineering standards/practice	3
Total	14

Presentation Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following presentation aspects:

1. General professionalism and oral communication	3
2. Knowledge of the background material	3
3. Organization & quality of presentation material	3
4. Group dynamics/member participation	4
5. Quality, effectiveness, & use of visual aids	3
Total	17

Comments:

struggled to explain objectives, lot of talking and lacked conciseness.

• Refinement and product, regulatory backing

2026 CHEME EXPO JUDGING SHEET

Judge Name: Paul Diaz

Team Number: 4

Team Members:

Technical Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following technical aspects:

1. Identification of project objective(s)	4
2. Evaluation of design alternatives with realistic constraints (economic, environmental, social, ethical)	3
3. Consideration of factors influencing the design (cost, manufacturability, sustainability, maintainability)	4
4. Overall fulfillment of project objectives	4
5. Project practicality in view of contemporary engineering standards/practice	4
Total	19

Presentation Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following presentation aspects:

1. General professionalism and oral communication	4
2. Knowledge of the background material	4
3. Organization & quality of presentation material	3
4. Group dynamics/member participation	3
5. Quality, effectiveness, & use of visual aids	3
Total	17

Comments:

Very interesting discussion on market analysis. Lacked some research on regulatory incentives.

2026 CHEME EXPO JUDGING SHEET

Judge Name: Paul Diaz

Team Number: 3

Team Members:

Technical Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following technical aspects:

1. Identification of project objective(s)	4
2. Evaluation of design alternatives with realistic constraints (economic, environmental, social, ethical)	3
3. Consideration of factors influencing the design (cost, manufacturability, sustainability, maintainability)	3
4. Overall fulfillment of project objectives	4
5. Project practicality in view of contemporary engineering standards/practice	3
Total	17

Presentation Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following presentation aspects:

1. General professionalism and oral communication	4
2. Knowledge of the background material	3
3. Organization & quality of presentation material	3
4. Group dynamics/member participation	5
5. Quality, effectiveness, & use of visual aids	4
Total	19

Comments:

Needs to understand reasons to enter market. Chose location purely on competitor decision to locate, not understanding value chain of suppliers/buyers.

2026 CHE SENIOR DESIGN SHOWCASE FEEDBACK

1. Curriculum Alignment & Industry Readiness

Rating (1-5): 5

From your perspective, how well do our students demonstrate readiness for industry practice?
What specific skills or knowledge areas are strong, and where do you see gaps?

THERE WAS A STRONG SHOWING OF MODELING AND BASIC EQUIPMENT DESIGN SKILLS.

THERE IS ROOM FOR IMPROVEMENT IN PRESENTATION AND TECHNICAL/DATA REPRESENTATION, PARTICULARLY AROUND PFD'S.

2. Engineering Judgment & Decision-Making

Rating (1-5): 4

To what extent did the teams demonstrate sound engineering judgment in their design choices?
Can you identify examples where decisions were particularly strong or needed improvement?

THERE WAS GOOD JUDGEMENT IN IDENTIFYING MARKETS AND CHOOSING PROJECT LOCATIONS.

3. Real-World Constraints Integration (Safety, Sustainability, Economics, etc.)

Rating (1-5): 4

How effectively did the projects incorporate real-world constraints such as safety, sustainability, economics, and operability? What additional considerations would you expect in an industry setting?

SOME ECONOMICS SEEMED OVERLY OPTIMISTIC AND GENERALLY LIMITED ATTENTION ON WASTE STREAMS OR PROCESS COMPLEXITY/DIFFICULTY IN OPERATIONS.

POLYPROPYLENE CRACKER

2026 CHEME EXPO JUDGING SHEET

Judge Name: Steven Metzgar

Team Number: 1

Team Members: ALEXIS GUILLEN, RISHASH PATEL, BASIL HASHIM

Technical Quality

Judges will be assigning a score of 1 (poor) through 5 (excellent) on the following technical aspects:

1. Identification of project objective(s)	5
2. Evaluation of design alternatives with realistic constraints (economic, environmental, social, ethical)	4
3. Consideration of factors influencing the design (cost, manufacturability, sustainability, maintainability)	3
4. Overall fulfillment of project objectives	4
