

EPC meeting #1 Fall 2022

Attendees: Ataei, Komperda, Kosmach, Kotche, Troy, Wang

Absent: Zdunek

Meeting Minutes

Update : 9/8 All DUGS voted via email to approve CRS change to CME 297: Prerequisite(s): **Eligibility to register for ENGL 160** instead of completion of ENGL 160. This aligns with ME 250, which is also approved for BS CME degree requirement. Miiri will approve on behalf of COE when change comes through CRS.

Discussion Items

- Need COE College of Engineering policy that international students wanting to apply for CPT, internships, and co-ops also need to be in **good academic standing**. If agreed, policy should be documented on UA website and through Career Services information. **EPC voted to approve unanimously. Miiri will follow up.**
- Student advisory board **concerns about how to remove unreliable students, how can a student rep be a voice for all students in their dept, require 3-4 meetings per semester within the dept, vote by students. Miiri will draft proposal for input and feedback from DUGs**
- MENG certificate in AI/ML **questions related to these MENG courses; can non MENG students take these 8 week async courses? DUGs were unaware and have concerns about impact. Kotche will request meeting with Pat, Jim, Carmen, Barbara, and Danilo. Course descriptions in CRS are not appropriate for asynch courses. Proposal still reflects ECE 412.**
- Deps - review catalog courses and delete/update any old courses that are listed as prerequisites for current courses. **For ABET let's use 7 years timeline (courses older than 7 years should be removed from CRS and require a petition/mod of major). Each DUG will review UG courses in respective dept for reference to outdated courses. For courses that are referenced that are outside of their dept, DUGs will list and present at next EPC mtg to verify if courses are still valid.**
- CME 111 (new Gen Ed) status. **EPC voted to approve in 5/22 meeting, contingent on minor edits to CRS. Hossein to send to Miiri updated document for college approval, and she will request routing to Ged Ed committee to be placed on their agenda.**
- In person vs zoom meetings – 60 min enough time? **Extend to 90 min, and we will keep meeting on Zoom, except perhaps last meeting of the semester. @Alan Zdunek, how much of a problem does this pose for you?**
- EPC for graduate courses/programs **Committee requested periodic meetings with DGS to ensure good communication. Miiri will reach out to Carmen to schedule a meeting before midsemester**
- Discussion item – college policy proposal to limit the number of times a student can repeat a course. **“after 3 attempts with unsuccessful course progress, departmental review and can be removed from program. After 4 times, they will be removed.” - who will enforce – College level? Miiri to discuss with Jim. Also discussed Registrar's office policy – repeating a class more than once requires approval of the Dean. <https://registrar.uic.edu/student-records/course-repeat/> DUGs will communicate this to their dept faculty either in next dept faculty meeting or via email.**

CRS

- ECE 424 Jim will review for discussion in next EPC meeting
- ECE 466 (cross list pending with CS) – approved by EPC in May, xlist approved 08/31, Miiri will approve on behalf of EPC.

Other Topics

- CS 100 Update 9/2 CS updated CRS to reflect items below. Miiri approved on behalf of EPC 9/2. We didn't discuss! This will remain on agenda until resolved...

Discussion about CS 100 preventing CS 111, non majors cannot become CS majors as written. Pat will review and address catalog changes, aiming for May meeting.

- The course description still indicates says that students cannot receive credit for CS 100 is they have credit for CS 101 or MCS 260. CS 101 is the old CS 111 equivalent course so at minimum this needs to be updated to CS 111 instead of CS 101. Request Pat to update course description.
- The description also indicates that CS and ECE majors cannot use it towards graduation credit but implies that other majors will. Do the other Departments (Bioe, ChE, CME, MIE) want to accept CS 100 for free elective credit / outside rubric credit or do they want to consider it a remedial course and award no credit...similar to how a Math 121 course would be looked at compared to Math 180. If it is a remedial course, the course description should be updated to indicate that no graduation credit for COE majors. CS 100 not accepted for free elective in any COE dept as it is considered remedial. Request Pat to update course description.
- Students take the AP CS exam in High school and some of them receive credit for CS 100 and they are now asking to use it as free elective / outside major rubric credit. Historically, we have denied these requests citing that the course is remedial for COE students compared to CS 107, CS 109, CS 111 course already required for the degree. See above.

EPC meeting #2 Fall 2022

10/6/22, 10- am

Attendees: Abusalah, Ataei, Komperda, Kosmach, Kotche, Troy, Wang, Zdunek

Meeting Minutes

Discussion Items

- HLC visit to UIC March 2024 (Lo'Ay)
 - Review PEO for all programs, not just ABET programs
- ABET DEI initiative (Lo'Ay)
 - Activities at institutional and college level for next visit 2026
 - ABET likely will have new program outcome related to DEI
 - Use Dept Advisory Board to review PEOs regularly
 - Review EXPO Reports- Actions to improve
 - ABET student outcomes assessment cycle – do we need to use judges feedback on EXPO presentations for ABET? Miiri will discuss with Simona, followup meeting with Sr Des instructors to include Lo'Ay
 - Feedback on PEOs from employers at career fair; Lo'Ay did not have good success with this approach in the past
 - Miiri recommended that Lo'Ay and dept ABET reps meet to discuss these issues in preparation for visit
- Concentrations/specializations in the BS degree.
 - ECE, CHE – can do multiple concentrations if no overlap but very unlikely
 - CS, BME – cannot do multiple concentrations
 - MIE, CME – considering creating new tracks/concentrations

- Microcredentials Miiri shared that university is looking at offering microcredentials, will bring more information to subsequent meetings.
- MATH 310 for transfer credit: "Transfer Credit Limitations: Upper-division (300- and 400-level) courses not allowed. <https://catalog.uic.edu/ucatalog/colleges-depts/engineering/#text> Brief discussion of issue, to be continued further in subsequent meetings. Should COE consider accepting higher level **non-engineering courses** for transfer? Math 310 is articulated for nonCOE majors. Or, is MATH 310 necessary to be 300-level?
- Should COE follow LAS policy for Retroactive Credit in Foreign Language Pat and Jon to discuss with CS and MIE dept stakeholders, since it primarily affects CS and MIE who accept "free electives"
 - *Placement into the 104-level provides four hours of proficiency credit for the 103-level course if the student completes the 104-level course with a grade of B or higher.*

<https://catalog.uic.edu/ucatalog/colleges-depts/liberal-arts-sciences/#c17>
- CME: decrease in the PHD coursework credit hour requirement for direct PhD students in Civil Engineering or in Materials Engineering at UIC from 56 credit hours (14 courses) to 48 credit hours (12 courses), and that the revised direct PhD curriculum will apply to all current and future direct PhD students in the CME department henceforth. **EPC unanimously approved**
- MENG AI/ML certificate **EPC unanimously approved after DGS/Dept approval by stakeholder departments (CS/ECE)**
- Microcredentials Miiri introduced concept of microcredentials and will bring additional information to EPC henceforth

CRS

- ECE 424 – due to time limitations and straightforwardness of change, EPC will vote by email
- ME 210 – updated CME dept name, due to time limitations and straightforwardness of change, EPC will vote by email
- ME 212 – bring to next EPC meeting
- CME 297 – changes updated based on EPC feedback, due to time limitations and straightforwardness of change, EPC will vote by email

EPC meeting #3 Fall 2022

10/27/22, 10-11:30 am

Attendees: Ataei, Komperda, Kosmach, Kotche, Troy, Wang, Zdunek

Meeting Minutes

Discussion Items

- Advising feedback?
MIE is using Qualtrics using UIN for advisor evaluation and lifting registration hold. Other departments might want to consider. Unique emails sent to those who have not completed.

Signup.com used by CHE to make appointments for all faculty

FERPA consideration – must have camera on to verify identity.

ABET – advisor surveys must include professional development questions.
BME includes DEI questions.
- CS+Design
EPC voted unanimously to approve
- 4+1 option? Alan raised issue that students must move to graduate college in +1 year, which impacts financial aid. It was also emphasized that there could be ABET or HLC considerations.
- Study abroad – 300+ level courses considered with policy
Miiri will schedule followup meeting to initiate program planning.
Alan will share relevant info from IES consortium in Ireland
CS student pilot articulation of CS tech electives in London for Spring 2023.
- Gary Friedlander, Interim Director of the Center for Intellectual Property, Information & Privacy Law at UIC Law, is interested in collaboration between UIC Law and the College of Engineering.
Followup meeting for Colleges in Nov; Miiri will request to include Hossein, Zhinan, Betul Bilgin, Jon, and Pat (or dept delegates) in meeting so all depts can weigh in.

CRS

- ECE 424 EPC voted unanimously to approve after Miiri updates topic lab hours to (3) for weeks 12-14 on behalf of ECE. (previously missing)
ME 210 – EPC voted unanimously to approve
ME 212 – EPC voted unanimously to delete

EPC meeting #4 Fall 2022

Attendees: Hossein Ataei, Jim Kosmach, Miiri Kotche, Pat Troy, Zhinan Wang (+ Jon Komperda until 11am)

12/1/22, 10-11:30 am

Meeting Minute

Discussion Items

- Status: COE approves follow LAS policy for Retroactive Credit in Foreign Language
11/3 MIE agrees to LAS policy
11/7 CS agrees to LAS policy

Placement into the 104-level provides four hours of proficiency credit for the 103-level course if the student completes the 104-level course with a grade of B or higher.

<https://catalog.uic.edu/ucatalog/colleges-depts/liberal-arts-sciences/#c17>

- Automatic prereq checking – course list in Documents folder

CRS

- CME 207 return to add Course Learning outcomes that align with course assessment (map to ABET outcomes)
- CME 302 removing CS 109 prereq, remove lab, update learning outcomes and assessment methods
- CME 396 Hossein to communicate to CME that other sr design sequences are 396/397
CME 481 **EPC voted to approve pending these changes**, CME to update prereqs to ensure students are upper level/seniors, update credit hours for UG vs grad, contact hours change from 3-4, update general reason for this request
- CME 487 **EPC voted to approve pending these changes**, CME to update prereqs to ensure students are upper level/seniors, update credit hours for UG vs grad, update general reason for this request
- CME 488 CME to update prereqs to ensure students are upper level/seniors, update credit hours for UG vs grad, update credit hours for UG vs grad, contact hours change from 3-4, update faculty proposer, update topic hours to be 45, update general reason for this request
- CME 560 **EPC voted to approve pending these changes**, update major topic hours to be 45, update general reason for this request
- ECE 396 **EPC voted to approve**, committee request for outcomes and assessment methods to be updated after submission for new revision
- CME 261 / ME 261 prereq alignment: **EPC voted to approve pending these changes**, CME to update their prereqs to reflect ME 261.

Update: CME 261. Materials for Manufacturing. 2 hours.

Prerequisite(s): CHEM 122 and CHEM 123, and PHYS 141, and MATH 181.

ME 261. Materials for Manufacturing. 2 hours.

Prerequisite(s): Credit or concurrent registration in CHEM 122 and Credit or concurrent registration in MATH 181; and PHYS 141.

- Pat Troy is a **gem** and volunteers to serve as Banner Carrier at Dec 11 Commencement. Congrats to Hossein on hooding 2 PhD students!
- Advising feedback?
Revisit in spring 2023, ask Jon: MIE is using Qualtrics using UIN for advisor evaluation and lifting registration hold. Other departments might want to consider. Unique emails sent to those who have not completed.

EPC meeting #1 Spring 2023

2/2/23, 10-11:30 am

Present: Komperda, Kosmach, Kotche, Troy, Wang

Meeting Minutes

Discussion Items

- Change meeting to Tuesday 10am because Alan teaches on Thurs? **Miiri to confirm 9:30-11am start is ok with Hossein and Alan.**
- Data Science, concentration: Urban Planning and Public Affairs – elective course modifications **No changes to total number of credits required for concentration (18) but Urban Planning dept, EPC approved.**
- UA Advisory Board – application, dept commitment for reps to hold twice a semester Town Halls
 - Feedback? **Lengthy discussion to trial this. Make sure to set expectations, require students to keep attendance records of dept student forums, require summary report of each meeting. At minimum present to AD (Kotche). DUS present agreed that students can host dept sessions. Please all DUS confirm to me that I can require this; do you need to verify with head?**
- Feedback? Math and Science credit hours for students who have completed all the degree requisites but are short hours due to differences in Transfer work credit hours and/or UIC courses changing credit hours. **Will need to revisit with CHE and CME input at next meeting. MIE is modifying curriculum which will align with ABET reqmt 30 hours of math/science. Will depts need to require curric change?**

In the past, we have always required the students to take additional Math/Science hours to make up these deficiencies. Since there is no longer any specific language in the ABET requirements saying how many hours of Math and Science are required, it has been suggested that student be able to make up these hours with any eligible free elective hours. (also will check with Loay)

ABET states 30 credit hours per: <https://www.abet.org/accreditation/accreditation-criteria/criteria-for-accrediting-engineering-programs-2022-2023/>

- College-wide syllabus language requirement? (academic integrity, accommodations, ChatGPT, etc.). **CATE has syllabus template that can be used. <https://teaching.uic.edu/resources/toolkits/syllabus/oncam-toolkit/> Miiri can send note during Advising Week to faculty as reminder of 1) Univ syllabus policy <https://faculty.uic.edu/development/teachingandlearning/teachingpolicies/>, 2) CATE template and 3) Jon's as an engineering example.**
- **Create proposed draft of office hour/outside contact policy (Jon K) - solicit initial feedback from depts**
- Course prereq update from each dept? (Have units evaluated and updated prereqs?). **Did not discuss. Tabled to next meeting**
- Advising feedback?
 - 97% response, but hold removal based on this and Jim's report is difficult. MIE dept working to improve policy – not ready for adoption yet!**
 - Revisit in spring 2023, ask Jon: MIE is using Qualtrics using UIN for advisor evaluation and lifting registration hold. Other departments might want to consider. Unique emails sent to those who have not completed.**

CRS

Four courses approved by EPC vote.

- CME 207
- CME 302
- CME 488
- CME 396 – **no change, Dept prefers to keep CME 496/497**

EPC meeting #2 Spring 2023

3/7/23, 9:30-11 am

Attendees: Ataei, Komperda, Kosmach, Kotche, Troy, Wang, Zdunek

Meeting Minutes

CRS Approvals

- [BME 564](#) unanimously approved
- [CME 441](#) recommend removing HW and quiz numbers in CLO, map assessment methods to CLO
- [CS 472](#) unanimously approved
- [CS 524](#) unanimously approved, contingent upon more explicitly connecting CLO and assessment methods (approved by COE 3/21/23)
- [CHE 396](#) unanimously approved

-Recommendation to provide departments an example of a model CRS form ([Miiri](#) to share CME 111 with EPC in April meeting). [DUS](#) can share this with depts as best practice for subsequent CRS submissions seeking approval. We'd like to see better mapping of how exactly assessments will assess specific learning outcomes.

<https://uofi.box.com/s/cgslofxqumhhpwlvj81qmgvuklo1l32x>

-Discussed dept policies for min/max # times offering 494 courses before assigning course number. Varying approaches.

-[Miiri](#) send EPC a document from CATE that contains action words for CLO

-Discussion about tightening up CRS submissions to support better course design and instruction vs. who actually sees/uses the form after its approved.

<https://academicprograms.uic.edu/courses/course-resources/crs-instructions/crs-instructions-page-3/>

Discussion Items

1. Email vote for Data Science program modification to reduce ENGR 100 from 1 to 0 credit hours (in error) and increase CS 211 by 1 credit hour. Unanimously approved 2/15/23.
2. Followup from last meeting: Math and Science credit hours for students who have completed all the degree requisites but are short hours due to differences in Transfer work credit hours and/or UIC courses changing credit hours. ([see summary of reqd hrs by major here](#))

Pat shared a CS document that is used to provide course recommendations to students to reach minimum math/science requirements outside of course requirements. DUS will adopt a similar form to guide students in each dept.

https://www.cs.uic.edu/~grad/Supplemental_Science_List.pdf

3. Course prereq update from each dept? (Have units evaluated and updated prereqs?).

Summer or Fall 2023? Hossein and Jim want in effect for Fall 2023

- CME 300, CME 301, CME 310, CME 322
- ECE 310, 311, 317, 322, 333, 340, 341, 342, 346, 347, 350, 366
- **Miiri** to follow up with Dana about ME 347 and MIE/IE 396 prereq and meet with Dana to discuss COE needs wrt automated prereq checking

4. **Miiri** to schedule follow up EPC meeting before April monthly meeting for items we were unable to cover

EPC meeting #3 Spring 2023 (2nd March EPC meeting)

3/28/23, 10 am (2nd March EPC meeting)

Attendees: Ataei, Komperda, Kosmach, Kotche, Troy, Wang, Zdunek

Meeting Minutes

5. Automatic course prereq update

- Students must register for summer courses that are prereqs for Fall, wait 1 day for DARs to be updated
- Next courses: ME 347, ME/IE 396 for Spring 2024
- New course requests will be brought to EPC

6. CME Curriculum Updates: Proposed for effective Fall 2024

- 6 tech electives required
- Thermo / earth-env science / FEM requirements removed
- Aiming to present to EPC in April

7. UA Advisory Board – application, dept commitment for reps to hold twice a semester Town Halls

Make sure to set expectations, require students to keep attendance records of dept student forums, require summary report of each meeting. At minimum present to AD (Kotche). DUS present agreed that students can host dept sessions. CME faculty prefer utilizing Advisory Board. We discussed caution in how administered.

8. Create proposed draft of office hour/outside contact policy (MIE) – DUS prefer to keep this at dept level as needed. Will revisit if issue arises again.

9. College-wide syllabus language requirement? (academic integrity, accommodations, ChatGPT, etc.). **Miiri did not do – aim for Fall 2023** : CATE has syllabus template that can be used. <https://teaching.uic.edu/resources/toolkits/syllabus/oncam-toolkit/> Miiri can send note during Advising Week to faculty as reminder of 1) Univ syllabus policy <https://faculty.uic.edu/development/teachingandlearning/teachingpolicies/> , 2) CATE template and 3) **Jon's** as an engineering example, will send summer syllabus.

10. Advising feedback?

- MIE: Excel spreadsheet autochecks list who has been advised (from Jim M), cross checks those who has completed Qualtrics advising survey.
- ECE: very manual, entered in iAdvise that student was not responding, COE advising hold inadvertently lifted
- CHE: not doing any advising surveys
- BME: very manual

EPC meeting #4 Spring 2023

4/11/23, 1 pm

Attendees: Ataei, Komperda, Kosmach, Kotche, Troy, Wang, Zdunek

Meeting Minutes

<https://uofi.box.com/s/z7kzmt4xp6yr6nwgqlnr5vlcqta4di1s>

CRS

1. CME 290 credit or concurrent registration for CME 297 or ME 250, align learning outcomes. EPC approved pending these changes.
2. CME 441 EPC approved
3. CS 201 EPC approved to delete class; pending Pat clarifying in reason
4. CS 423 EPC approved
5. CS 468 EPC approved
6. CS 535 EPC approved pending mapping of LO and assessment methods.
7. CS 530 return to course proposer to reduce topic hours, modify language, LO4 repeated, project, clarify overlap with 531
8. CS 531 LO4 repeated, topic overlap with CS 530, return to proposer to clarify overlap with 530
9. ECE 311 EPC approved
10. BME 333 EPC approved pending removal of BIOE 430 reference

Other Topics

1. Microcredentials/revised certificate policy – draft proposal (in documents folder) to be discussed at next meeting

Certificate Name	Status	Term of Establishment	College	Department
Bioinformatics	Active	2006 Summer	Engineering	Bioengineering
Disaster Management	Active	2015 Spring	Engineering	Engineering Administration
Electromagnetics Technology	Active	2005 Summer	Engineering	Engineering Administration

Energy Efficient Building Design	Active	2018 Fall	Engineering	Mechanical and Industrial Engineering
Engineering Law and Management	Active	2005 Summer	Engineering	Engineering Administration
Materials Engineering	Active	2021 Fall	Engineering	Civil, Materials, and Environmental Engineering
Power Generation	Active	2018 Fall	Engineering	Mechanical and Industrial Engineering
Wireless Communication Technology	Active	2005 Summer	Engineering	Engineering Administration

2. CME curriculum update **EPC will review and email vote of approval before, pending.**
Update: 4/17/23 all DUS voted to approve CME curriculum.
3. 4+1 program (Jim Kosmach). *We'd like to get one started in ECE and would like to understand if anyone has any quick thoughts on how to get things started, how they work, etc. A small number of questions around the implementation such as do the students in the program get to take the graduate version (more hours) of a course and how many hours count towards both degrees.* **to be discussed at next meeting**
4. Enrollment Residence Requirement for Undergraduate Degrees **to be discussed at next meeting**
<https://policies.uic.edu/educational-policy/enrollment-residence-requirement-undergraduate-degrees/>

Policy Statement: The enrollment residence requirement must be satisfied. In all academic units except the College of Business Administration, either the first 90 semester hours or the last 30 semester hours of University work must be taken at UIC. In addition, at least one-half of the semester hours required in the student's major area of study must be completed at UIC. Concurrent attendance at UIC and another collegiate institution or enrollment during the summer at another institution, when approved by the student's college, does not interrupt the UIC enrollment residence requirement for graduation.
5. COE GenEd – advertise to UG students? **to be discussed at next meeting**
 - a. IE 118
 - b. CME ?
 - c.

6. Final Spring EPC meeting either 5/16 or 5/18. **Miiri to confirm.** (Alan out).

EPC meeting #5 Spring 2023

5/15/23

Attendees: Ataei, Komperda, Kosmach, Kotche, Troy, Wang (absent Zdunek)

Meeting Minutes

<https://uofi.box.com/s/7ckr2uxs0fx107fdnrluz15yjl6gyfj>

Topics

- MIE curriculum revision
IE and ME curricula approved; with the exception of ME250 being renamed ME150 due to conflict with CME students (and BME) taking the course (who need 200-level course option). MIE dept will bring proposed resolution back to EPC.

Update 5/18:
 - a. MIE dept opted to retain ME250 course numbering
 - b. All attendees (DUS except Zdunek) voted via email to approve ME and IE curricula
- CS: CS is proposing to correct the prelim description in the catalog because it was ambiguous. The Dept. of Computer Science has requested that catalog be edited to change the PhD in Computer Science's Qualifying and Preliminary Examination format options, so they both are "written and oral" (currently the Qualifying is written, and Preliminary is oral). DGS has approved by C Lilley 5/15/23. **Unanimously approved.**

CRS

11. CME 402 (tabled to next meeting)
12. ME250: ME150 -> update number / cross list IE **offline discussion necessary** with CME / MIE depts to change course number to 100 level
13. ME308 -> make elective **need dept approval first**, EPC approved.
14. ME325 -> make elective **Approved.**
15. ME341 -> remove ME308 prereq **Approved.**
16. ME370 -> remove ME260/261 prerequisite **Approved.**
17. ME428: ME328 -> update number, update CRS, add MATH310 prereq **Approved.**
18. IE348 -> new class **Approved.**
19. IE446 -> make elective **Approved.**
20. IE461 -> make elective **needs Public Health approval first**, EPC Approved.
21. IE463 -> remove IE473 prereq **Approved.**
22. IE466 -> remove IE473 prereq **Approved.**
23. IE473 -> make elective **Approved.**

Outstanding from April mtg:

24. CME 290 credit or concurrent registration for CME 297 or ME 250, align learning outcomes. EPC approved pending these changes.
25. CS 535 EPC approved pending mapping of LO and assessment methods.
26. CS 530 return to course proposer to reduce topic hours, modify language, LO4 repeated, project, clarify overlap with 531
27. CS 531 LO4 repeated, topic overlap with CS 530, return to proposer to clarify overlap with 530

Other

5. Microcredentials/revised certificate policy – draft proposal (in documents folder) rollover from April mtg, to be discussed in Fall 2023 mtg

Certificate Name	Status	Term of Establishment	College	Department
Bioinformatics	Active	2006 Summer	Engineering	Bioengineering
Disaster Management	Active	2015 Spring	Engineering	Engineering Administration
Electromagnetics Technology	Active	2005 Summer	Engineering	Engineering Administration
Energy Efficient Building Design	Active	2018 Fall	Engineering	Mechanical and Industrial Engineering
Engineering Law and Management	Active	2005 Summer	Engineering	Engineering Administration
Materials Engineering	Active	2021 Fall	Engineering	Civil, Materials, and Environmental Engineering
Power Generation	Active	2018 Fall	Engineering	Mechanical and Industrial Engineering
Wireless Communication Technology	Active	2005 Summer	Engineering	Engineering Administration

6. 4+1 program (Jim Kosmach). *We'd like to get one started in ECE and would like to understand if anyone has any quick thoughts on how to get things started, how they work, etc. A small number of questions around the implementation such as do the students in the program get to take the graduate version (more hours) of a course and how many hours count towards both degrees.* rollover from April mtg, , to be discussed in Fall 2023 mtg
7. Enrollment Residence Requirement for Undergraduate Degrees rollover from April mtg, , to be discussed in Fall 2023 mtg
<https://policies.uic.edu/educational-policy/enrollment-residence-requirement-undergraduate-degrees/>

Policy Statement: The enrollment residence requirement must be satisfied. In all academic units except the College of Business Administration, either the first 90

semester hours or the last 30 semester hours of University work must be taken at UIC. In addition, at least one-half of the semester hours required in the student's major area of study must be completed at UIC. Concurrent attendance at UIC and another collegiate institution or enrollment during the summer at another institution, when approved by the student's college, does not interrupt the UIC enrollment residence requirement for graduation.

6. COE GenEd – advertise to UG students? rollover from April mtg, , to be discussed in Fall 2023 mtg
 - a. IE 118
 - b. CME ?
